Fundamentals of Humanities eResearch

Christa Williford, and Charles Henry. One Culture. *Computationally Intensive Research in the Humanities and Social Sciences: A Report on the Experiences of First Respondents to the Digging Into Data Challenge*. Council on Library and Information Resources, June 2012.

"The Digging into Data Challenge presents us with a new paradigm: a digital ecology of data, algorithms, metadata, analytical and visualization tools, and new forms of scholarly expression that result from this research."

"It is the *combination* of algorithmic analysis and human curation of data that helps humanists..."
